left arm

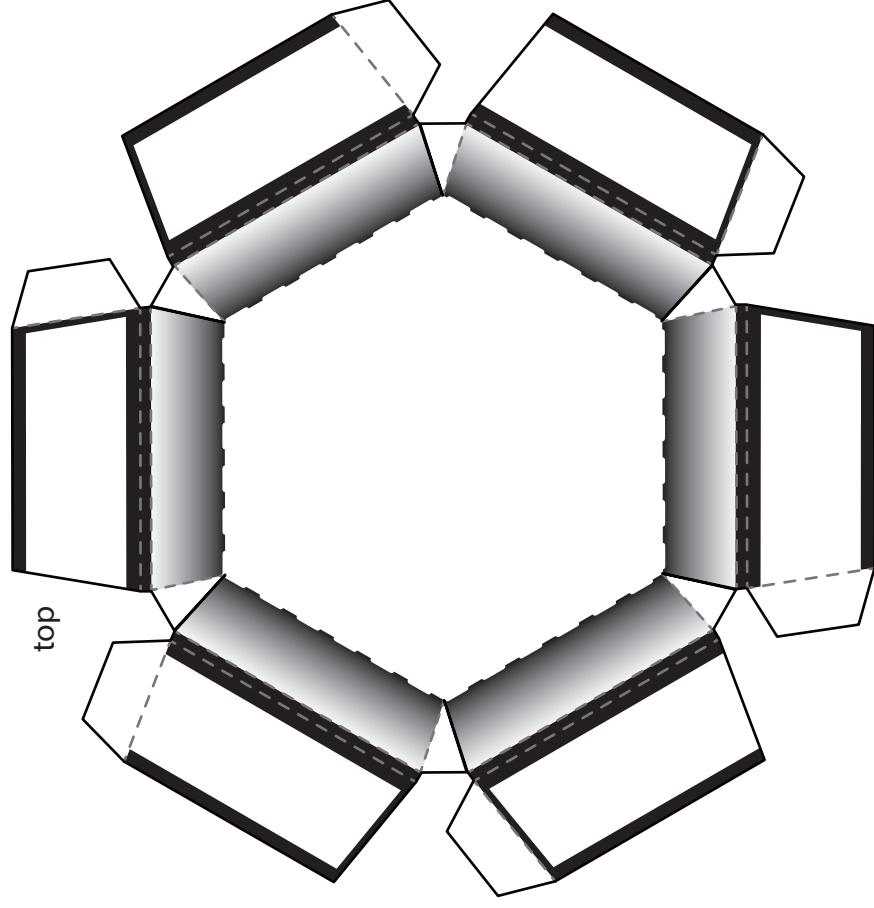

right arm

instructions body:

1. score all lines.
2. cut out dotted lines in body for the arms.
3. cut out body and top of head.
4. fold the lines and glue body together - before glueing outer tab attach top of the head. (note: match thick lines!)
5. cut out and fold over arms and glue together.
6. stick arms in side of body. (if needed, score at the edge of black part of arms, fold over and glue to inner side of body).

instructions pot:

1. score all lines (note: there are two score-lines on top part that build the rim and go over the bottom part).
2. cut out, fold and glue bottom part of pot.
3. take a break, smoke a cigarette, have a drink, or...
4. fold the lines: -inner part is a valley-fold. -fold over the rim.
5. glue together inner part (inwards).
6. start glueing outer part folded over.
7. after two or three parts are glued together, put over bottom and continue glueing the rest. now it will fit like a glove!

8. glue cactus into pot.
9. and most important: no watering necessary!
